EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph K. Liu (Reg. No. 51,957) on 11/30/2005.

The application has been amended as follows:

delete claims 32 – 41.

Inventorship

2. In view of the papers filed 9/15/04, it has been found that this nonprovisional application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and accordingly, this application has been corrected in compliance with 37 CFR 1.48(a). The inventorship of this application has been changed by the addition of Bin Zhao. Appropriate changes have been made to the record to reflect the addition of Bin Zhao as an inventor.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

The prior art of record does not specifically disclose or remotely suggest

With regard to independent claim 1:

a process manager configured to monitor the plurality of server programs and the plurality of server computers for software and hardware failures and to **spawn a new server program** in the event that an existing server program fails;

a plurality of meeting managers configured to monitor the plurality of server programs, wherein **the plurality of meeting managers and the process manager mutually monitor each other for software failures**, further wherein the plurality of meeting managers **monitor a load on each of the plurality of server computers**, and further wherein the plurality of meeting managers store state information for the plurality of on-line conferences in the meeting database.

These limitations, in conjunction with the other limitations in the independent claims, are not specifically disclosed or remotely suggested in the prior art of record.

A review of claims 1 and 27 - 31, in view of the Examiner's arguments above, indicates that claims 1 and 27 - 31 are allowable over the prior art of record.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2141

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
